

Dashboard Design

Date	7 October 2026
Team ID	N/A
Project Name	Food Analysis: Cuisine Demand & Order Trends Analysis
Maximum Marks	5 Marks

Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design

Activity 1: Interactive and visually appealing dashboards

Creating interactive and visually appealing dashboards involves a combination of thoughtful design, effective use of visual elements, and the incorporation of interactive features. Here are some tips to help you design dashboards that are both visually appealing and engaging for users so take care of below points

- Clear and Intuitive Layout
- Use Appropriate Visualizations
- Colour and Theming
- Interactive Filters and Slicers
- Drill-Down Capabilities
- Responsive Design
- Custom Visuals and Icons
- Use of Infographics

Major outcomes from the dashboard:

- Top cuisine : Desserts
- Revenue leaders: Snacks

- Peak period:
- Trend pattern: [Describe the overall trend, such as growth, dips or seasonality.]
- Segment or location view: Mumbai

Activity 2

Publish Dashboard on Tableau Public and Paste the Dashboard Public link below:
