

Document 9: Future Scope Report

Author: Akshay Chaudhari

Team ID: Akshay-11-0g

Project: Food Ordering Analytics

Date: October 2026

9.1. Future Scope & Enhancements

- **Predictive Analytics:** Integrate Machine Learning models in Python to predict peak-hour order demand.
- **Real-time Streaming:** Connect live PostgreSQL or Kafka pipelines to update Tableau charts dynamically.
- **Cloud Deployment:** Host the Flask web application on AWS Elastic Beanstalk or Render.
